

**The Council for Labor and Economic Growth  
Tackling Workforce Issues Facing Key Industry Sectors Committee  
Healthcare Sub-Committee  
C. S. Mott Foundation Building, Flint, MI  
December 11, 2006  
9am –11am  
Meeting Notes**

*In attendance:*

Committee Members - Jack Litzenberg, Ken Baker, Derek Adams, Jaye Shamsiddeen and Eleanor Josaitis

Staff - Larry Good, Donna Crudder, Vicki Enright, Diana Carpenter, Janice Cooper and Patty Vanaman

Reviewed hand out “Looking Ahead: Preventing a Long-Term Health Care Talent Crisis” (attached). The committee very much liked the direction of the document, and was enthused about using it with the full Council, and then sharing it with the Governor and other policy makers. Edits and recommendations were made on the document, which staff will revise and share with committee members for final edits by early January.

A key change will be to retitle the industry map to include framing the presentation as an opportunity for Michigan to get ahead of a next generation model of healthcare delivery that will carry very large scale changes in shifting to a population-centered health model.

Some of the thematic points noted during the discussion included:

Growth industry

- Health and care is a growth industry, not only with hospitals but also with colleges (R&D), and other spin off jobs i.e. construction, etc.

Engaging students in seeing healthcare as a career

- Consider Chicago’s model to reach out to students regarding health care careers.
- PSAs geared toward young people.

Universal Healthcare

What are the implications to the workforce-

- Shift toward preventative care
- How will the numbers be affected
- Services distributed from tech up to physician
- Change in delivery and usage
  - Nurse do diagnosis

### Next Steps

- Finalize the industry map document. (January, 2007)
  - Send to industry experts who advised the development for review and feedback.
  - Send to committee for final review.
- Set up meeting with heads of key state agencies to share the industry map and to get their feedback to the industry map. (February, 2007)
- Next committee meeting will be set for February at C.S. Mott Foundation offices in Flint. If schedules can be arranged, this will be the meeting with key agency heads.
- Present the map to the full Council at the next CLEG meeting. (March 2007)
